

High-Impact Volunteer Engagement Initiative

HIVE Facilitator Position Description

Position Overview

Facilitators guide organizations as they pilot new ways of engaging skilled volunteers for mission-centric work. By facilitating four coaching calls per organization, facilitators check teams' progress as they implement their pilot, support the work, provide accountability, suggest relevant resources, and liaise with the project consultant. While the project consultant and the NH Center for Nonprofits provide oversight and direction for the initiative, you, as Facilitator, are the navigator and guide along their journey.
